

Sphagnum Bogs Restoration Seminar

Taking the mystery out of the Bogs – Parks, Conservation and Lands is presenting a review of the Sub-Alpine *Sphagnum* Bog Restoration Project in Namadgi National Park.

A restoration program to assist the recovery of *Sphagnum* Bog ecosystems has been running in Namadgi National Park post the January 2003 fires. The program has involved the assessment of bog conditions, the development of restoration methods and priorities, grant applications, material gathering and field implementation.

We hope to take some of the mystery out of the science and work in the bogs, through an information session to be held at the

**Namadgi Visitor Centre
10.00 am to 12.00 noon
Friday 4 May 2007**
