Field Guide to the Birds of the ACT

Author-McComas Taylor, Illustrations by Nicolas Day
 Published by National Parks Association of the Australian Capital Territory Inc.
 First published 1993, updated 2006
 ISBN 0 9598267 8 5
 Available from bookshops and the National Parks Association of the ACT Inc.
 Recommended Retail Price \$19.95.
 A 90 page book, 10.5 X 21 cm, a size to fit in shirt or jacket pocket.
 Produced with perfect binding

Two hundred and seven birds seen in the ACT are described. Each bird is given a colour illustration along with a short description and icons to indicate status, breeding, season when present, habitat and size. As well as the descriptions and illustrations there are notes on using the field guide, habitats, favourite bird watching locations with a map, and tips for better bird watching. There is also a species list with common and scientific names.

Field Guide to the Native Trees of the ACT

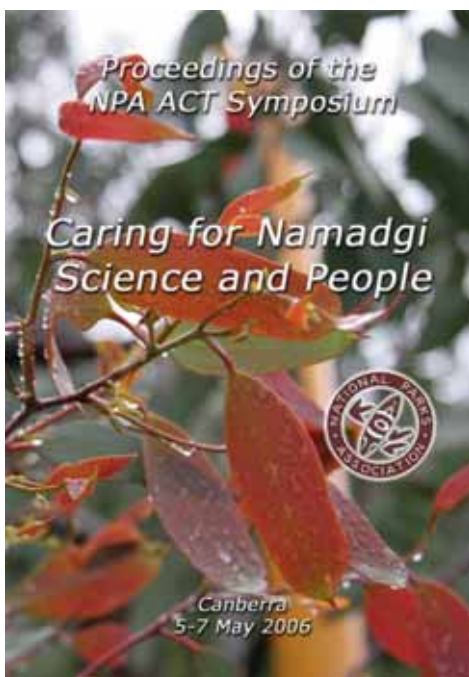

Authors: Laurie Adams, Roger Farrow, John Hook, Peter Ormay, and Andrew Slee

Illustrations by Betsy Osborne and Christine Payne. Photographs by Roger Farrow, Pierre Cochard and Clive Hurlstone
 Published by National Parks Association of the Australian Capital Territory Inc.
 First published 1983, second edition 2007

ISBN 0 646 44747 5
 Available from bookshops and the National Parks Association of the ACT Inc.
 Recommended Retail Price \$27.50

A 98 page book, 11 X 21 cm, a size to fit in shirt or jacket pocket
 Produced with perfect binding

What are the trees growing in the park near your house, on Black Mountain or down by the lake? Trees put the bush into the bush capital. *Native Trees of the ACT* describes 62 trees indigenous to the Australian Capital Territory. From Snow Gums high in the Brindabellas to Apple Box in the disappearing woodlands and Black Cypress by the Murrumbidgee River, they are all here. Have you ever wondered at the difference between a Red Gum and a Red Box? This book can tell you. You can identify trees easily with: colour photographs, botanical drawings, location tips, thumbnail maps for less common trees, a key for determining the species.

Caring for Namadgi - Science and People

Book arising from the NPA ACT Symposium, 5-7 May 2006

Compilers Kevin McCue, Sonja Lenz and Sabine Friedrich
 Publisher: National Parks Association of the ACT Inc., 2006
 ISBN 0 9802854-0-2
 Available from the National Parks Association of the ACT Inc. and Namadgi Visitors Centre
 Recommended retail price \$27.50

A 191 page A4 sized book for your library or coffee table, with numerous photos in colour and black and white and a comprehensive index
 Produced with perfect binding

Nineteen specialist contributors discuss aspects of Namadgi National Park including the survival of Corroboree frogs, the dynamics of kangaroos, the impact of climate change, floods in the Cotter River, post-fire rehabilitation of vegetation in the park. Well known identities Ian Fraser and Matthew Higgins provide thought provoking articles on this local treasure.
